2020 CATALOG

CREATED BY SHOOTERS, FOR SHOOTERS

Element Optics is a team of passionate, skillful professional shooters who design and manufacture quality riflescopes and optics. Decades of personal experience competing as professional shooters have provided us with unique insights into what the modern sport of shooting requires.

We understand the intricacies of different shooting disciplines, from benchrest and PRS/NRL to long range hunting and airgunning.

With a design team hailing from Sweden, South Africa and the USA, we bring together top international skills and expertise to create the very best optics money can buy. We provide the sporting, hunting and competition rifle industry with top quality products, designed to be compatible with both airguns and firearms.

RIFLESCOPES

HELIX PG. 3

TITAN PG. 5

NEXUS PG. 7

HELIX

6-24X50

Looking for a riflescope that punches above its weight? We've designed the HELIX in a way that puts the important things first: clear glass, smart reticles, innovative features and a turret system superior to other products in the same price class. Our turret system has been upgraded from your stock-standard sporting optic to feature stainless steel internals for resistance against wear-and-tear when dialing regularly - something that modern shooting disciplines require. The tool-free turrets and zero-stop mechanism give you high end features without breaking the bank, and the 24x reticle calibration allows you to effectively use the reticle at 12x and 6x if you so wish (with some basic math, of course!).

We've introduced quality control checks to give you peace of mind when taking that 1000 yard shot, and if something goes wrong, our Platinum Lifetime Warranty has you covered!

SPECS

MAGNIFICATION RANGE	6-24x	
TUBE DIAMETER	30mm	
RETICLE POSITION	Second Focal Plane	
OBJECTIVE LENS DIAMETER	50mm	
EYE RELIEF	3.94 - 3.54"	
FIELD OF VIEW	@100yds: 19.1-4.2ft	@100m: 6.4-1.28m
CLICK VALUE	1/4 MOA (15 MOA / REV)	1/10 MRAD (6 MRAD / REV)
ELEVATION ADJUSTMENT RANGE	65 MOA	18.9 MRAD
WINDAGE ADJUSTMENT RANGE	65 MOA	18.9 MRAD
MINIMUM PARALLAX	10 YDS	10 METERS

RETICLE OPTIONS

APR-1C MRAD

EHR-1C MOA

TITAN

5-25X56 FFP

Meet the Game Changer: The TITAN.

Like the Helix, the Titan puts your money where it matters, with precision-engineered internals and a turret system superior to other products in the same price class. To make things even better, we've gone one step ahead and given the Titan a 34mm tube and ED glass. The 34mm tube allows for a greater elevation/windage range when dialing for those extreme distance shots, and the 56mm Objective lens with ED glass provides you with an ultra-sharp, clear image with a large field of view.

The tool-free turrets and zero-stop mechanism give you high end features without breaking the bank, and the First Focal Plane reticle means the reticle subtensions remain true at any magnifications.

The reticle is illuminated, and available in 4 different options in MRAD and MOA.

SPECS

MAGNIFICATION RANGE	5-25x	
TUBE DIAMETER	34mm	
RETICLE POSITION	First Focal Plane	
OBJECTIVE LENS DIAMETER	56mm	
EYE RELIEF	3.74-3.54"	
FIELD OF VIEW	@100yds: 24.6-4.1ft	@100m: 8.24-1.37m
CLICK VALUE	1/4 MOA (25 MOA / REV)	1/10 MRAD (10 MRAD / REV)
ELEVATION ADJUSTMENT RANGE	80 MOA	23.2 MRAD
WINDAGE ADJUSTMENT RANGE	80 MOA	23.2 MRAD
MINIMUM PARALLAX	15 YDS	15 METERS

NEXUS

5-20X50 FFP

The word “NEXUS” means “focal point”, and that is what this model is to the ELEMENT OPTICS range.

The Nexus combines intuitive features like tool-free tactical turrets, zero stop and a removable throw lever with precision engineering to bring you the ultimate 30mm riflescope. A variety of different reticle designs in both MOA and MRAD cater to all shooters: Simplified options are easy on the eye, while more complex designs allow experienced shooters to hold off with precision.

Our design team of global competition winners & hunters understands optics, and have introduced strict quality control measures to ensure perfect operation under testing conditions. There's a reason for the price tag: We've held nothing back, selecting only the very best materials, engineering teams, assembly procedures and technical inspections - and you'll realise that the moment you pick it up. Need something that ticks all the boxes? Look no further than our flagship, the NEXUS.

SPECS

MAGNIFICATION RANGE	5-20x	
TUBE DIAMETER	30mm	
RETICLE POSITION	First Focal Plane	
OBJECTIVE LENS DIAMETER	50mm	
EYE RELIEF	3.03-3.66"	
FIELD OF VIEW	@100yds: 23.3-5.8 ft	@100m: 7.8-1.9m
CLICK VALUE	11/4 MOA (20 MOA / REV)	1/10 MRAD (10 MRAD / REV)
ELEVATION ADJUSTMENT RANGE	80 MOA	23.2 MRAD
WINDAGE ADJUSTMENT RANGE	50 MOA	14.5 MRAD
MINIMUM PARALLAX	10 YDS	10 METERS

BUILT TO LAST A LIFETIME

As shooters, we know that there is nothing worse than being let down by your equipment. We have made every effort to build a rugged, reliable product that will not break under any normal circumstances, and have implemented some of the strictest quality control measures in the industry.

Riflescopes aren't ornaments - They are built to be used. We know this all too well, and our products are tested for extreme shock (1000x 1000 G's!), Submersion in water, and extreme temperature conditions. A strict set of collimator tests also ensure that the critical internal mechanisms perform to our control standards.

Every ELEMENT riflescope comes with a Quality Guarantee card, signed by an inspector before the product is placed in the box. We hope it gives you peace of mind to know that we pride ourselves in what we make and expect everything that leaves the factory to give you a lifetime of faithful service.

However, we know that things can go wrong, and therefore ALL ELEMENT Riflescopes are covered by our **PLATINUM LIFETIME WARRANTY**. This includes lifetime cover for any riflescopes damaged through normal use, and requires no registration, proof of purchase or transfer. If you have a problem, we will fix it - It's that easy!

For more information about our **PLATINUM LIFETIME WARRANTY**, visit www.element-optics.com/warranty
